- ▶ Separate hostel for Boys and Girls absolutely safe hostel adorned with CCTV can be shared with parents monthly by email on their request.
- ▶ Indian food available in the hostel mess prepared by Indian Cook. (Fresh & Soft chapattis are prepared with the help of big Roti Maker machine.)
- ▶ Beautiful pollution less climate in shymkent.

RECTOR'S MESSAGE

M.M. Rysbekov Rector,
South Kazakhstan Medical Academy
Shymkent, Kazakhstan

Dear Applicants.

We are inviting you to the university to get one of the most interesting and human professionals the profession of being a Medical Doctor. Our medical school has ample 44 years experience in training doctors for foreign countries and employs the best specialist of Kazakhstan.

Training in our medical-school is conducted in line with up-to-date standards applied in CIS & European countries. We are offering our students training programmes, best fit for the needs of their home country or of places where they want to practice medicine in the future.

We are more particular about each & every student's growth by applying individual approach to each of them and help them solve all their problems related to training, accommodation, privacy and safety.

Once you become students of our school, you will be a part of us as we are professionally responsible for each one of you, and when you completed your degree we want you to remember us and stay in touch with us.

VICE DEAN MESSAGE

Dr Satyajit Singh
Vice Dean
International Department

Education is a lifelong adventure for all of us. Our curiosity & desire to develop our fullest potential and the motivation to improve our lives and the lives of those around us lead us to go beyond the classroom years and become permanent learners. In health, the best-prepared professionals are those who constantly update their knowledge and look for opportunities to learn from others and share our best practices.

The Faculty of Medicine at the South KAZAKHSTAN Medical Academy as one of the premier health education centres in Kazakhstan, attracting outstanding talents and forming the future leaders in a wide array of health science disciplines as part of our undergraduate programmes (medicine, Pharmacy, Nursing) as well as our numerous residency, graduate and postgraduate programmes.

Outlined in our 2023-2024 Strategic Plan is our faculty's vision-to remain at the forefront of health science professions, provide flexible, innovative and socially accountable programmes that are adaptive to our learners, our professional mandates and the needs of our society.

As Vice-Dean, Education, it is my role to ensure that our curriculum, accreditation, learning outcomes and teaching activities are maintained to the highest standards in all programs and continue to make us a world-class institution for health education. Our goal is to be a hub for innovative, brilliant minds that share our faculty's values of integrity, inclusion, compassion, excellence and passion for knowledge in their practice and their teachings.

I look forward to working together with learners, academics, clinical, researchers and partner faculties and institutions to continue on a path of enhancement of our education, developing unique skills, new approaches and forward-thinking ventures with an ultimate goal of better serving our communities.

SOUTH KAZAKHSTAN
MEDICAL
ACADEMY

South Kazakhstan Medical Academy (SKMA) was established in 1979. It is accredited and officially recognized by NMC, WHO & IMED Ministry of Education and Science of the Republic of Kazakhstan.

The University has a modern infrastructure for educational and scientific activities. It always looks forward to developing a modern foundation to strengthen the material and technical resources.

SKMA is a brilliant medical school, which aims to offer high quality of medical and pharmaceutical education to the students at all levels.

The teaching staff always update & upgrade themselves medically to provide the best knowledge & skills to the students. SKMA organizes its "University organized educational programmes" as their educational curriculum to provide clinical activities. These programmes help our students to grow professionally by providing environment as well as complete knowledge about medical field with the modern terms used in the market of healthcare.

FACULTY OF MEDICINE AT SKMA

The medical faculty of "SOUTH KAZAKHSTAN MEDICAL ACADEMY" (SKMA) is one of the largest faculties of the University and can rightfully claim to be the largest medical faculty in the country. Around 11,000 students from all over Kazakhstan study at the medical faculty. The medical faculty provides training in specially "General Medicine".

The structure of the medical faculty includes 48 departments, many of which take part in the educational process in most areas of training (specialties) implemented by the University. The departments of the disciplines of the mathematical, natural, science, cycle retain the role of a forge of personnel for the departments and research institutions operating in the fundamental branches of biology and medicine. The departments of the disciplines

of the humanitarian-socio-economic block are universally recognized methodological centers that determine the policy of teaching a foreign language, philosophy, bioethics, and the Latin language in medical schools. The scientific and pedagogical schools of the clinical departments of the faculty are unique, many of which are an integral part of the team of multidisciplinary university hospitals, successfully working at the bases – the leading clinical and research institutions subordinated to the Ministry of Health of the Kazakhstan Federation, Kazakhstan, Academy of Medical Sciences, Federal Medical Biological Agency of Kazakhstan and Department of Health.

The pride of the medical faculty is the faculty. Almost half of the departments are headed by academicians and corresponding members of the Kazakhstan Academy of Sciences and the Kazakhstan Academy of Education. The majority of the faculty departments create textbooks and teaching aids that are examined in the Educational and Methodological Association of Kazakhstan Universities in Medical and Pharmaceutical Education and are used by most medical and pharmaceutical universities in our country.

Training at medical faculty of "**The South Kazakhstan Medical Academy**" is an opportunity to become a highly qualified specialist who has gained knowledge and has mastered the first-hand practical skills of industry leaders who determine the development policy of domestic health care. Every year, the **SKMA** Faculty of Medicine graduates more than 1,000 doctors, two thirds of whom have "excellent" and "good" marks in graduation.

If you want to get a profession of a doctor in demand at all times, you want to become the best in your chosen specialty and are ready to work for this 24 hours a day and 7 days a week to you at the medical faculty of the **The South Kazakhstan medical academy Shymkent Kazakhstan**.

INDIAN FACULTY IN **SKMA**

BOON TO INDIAN STUDENT

We are having brilliant and perceptive faculty from India in our SKMA for our Indian Students.

All the appointed Indian faculties in SKMA are having more than 12 years of teaching experience in India and having sound knowledge of their subjects. Some of them are "Gold Medalist" from Indian Medical colleges.

There are ample benefits of having Indian faculty in SKMA, Such as :-

- No Language Barrier
- Easy & Comfort Learning for Indian Students.
- 24/7 personal guidance from teaching faculties.
- Good guidance for students to clear NEXT Exam.
(Applicable for Indian as well as foreign medical graduates from 2023)
- Indian faculty will give dual exposure about International diseases as well as Indian diseased with Treatments.
- Other colleges of Kazakhstan does not have Indian Faculties in their colleges.
- Indian Faculties will help our students in shaping up their career professionally in India as well as in starting their practice.
- Things will be easier & smooth for Indian Students for flourishing their Medical career in India.

12 MONTHS INTERNSHIP PRACTICAL

INTERNATIONAL RELATIONS

**International Relations Department
is a supporting structural unit of
South Kazakhstan Medical Academy
(SKMA).**

This department deals with the establishment of relations with foreign universities and relevant scientific research institutions and educational centers. It spreads information about exchange programmes and puts them into practice. The Department is also in charge of the minutes (protocols); Arrangement of hosting delegations from foreign universities and organizations, development of collaboration with higher educational institutions of countries involved in Bologna Process, serving foreign students, supporting mobility process of students and other relevant services

Kazakhstan is always having high diplomatic relation with Indian government since at the time of U.S.S.R

SKMA Ties-Up with NIMS & JSS

Indian Medical Universities

The foremost objectives of the MOU is to:-

Exchange the faculty staff between both Institutes/ Universities.

Conduct joint research activities including joint research publications.

Participates in Seminar and other related academic meetings / activities as well as an academic and research materials.

Thanks to educating not only undergraduate students, but also graduate students, doctor-interns, residency, doctoral students, the international corporation between the two countries is expending.

We have many similarities a great desire to study medical herbs that grow in two countries with genuine interest in raising a new generation of medical herbages that are based on them.

There is an environment for the exchange of experience in both sides.

LIFE IN CAMPUS

Today SKMA is one of the largest centre of university recognised medical education and range of related disciplines.

Contribution of Indian faculties are a boon for the students especially Southeast Asian students.

The infrastructure of the SKMA is designed and implemented in such a beautifull manner which gives each student an absolute opportunity to enjoy it .

Full fledged computerized libaray is the reward for SKMA students. They can easily access the research papers to quench and enhance their medical kanowledge by discussing about it with any of the faculty Indian or Internationl.

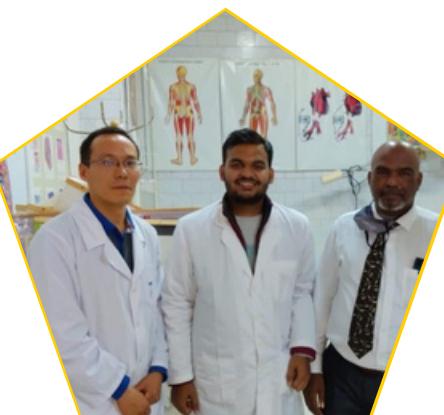

ISKMA campus where a student can imbibe the best of kanowledge Multicultural exposure and different extra curriculum activities which gives them courage to grow up.

Last but not the least as per the quote of famous.

BENJAMIN FRANKLIN

"An investment in konwledge always pays the best interest"

We can proudly assure you that your investment in SKMA as a medical student will definitely pay you the highest interest in your upcoming careers.

LIFE IN HOSTEL

Hostel life teaches a regulated way of life with self-dependence and self-reliance at low budget. Our hostel has the amalgam of children from different states of India.

There is supervision like a parents in our hostel by providing absolute security of 24/7 with CCTV cameras to the students.

We provide freshly prepared mom's like food to the students.

World Health Organization

United Nation Educational, Scientific and Cultural Activities.

As part of our goal to build information resources on medical education worldwide, FAIMER is developing a directory of international organization that recognize, authorize or certify medical schools and/or medical education programmes. These organization are often responsible for the establishment of national standards for medical education and the recognition of medical schools in their countries.

International Opportunities in Medical Education

As medical student and faculty interest in cross cultural education and global health increases, it is important to have better understanding of the variety and scope of available international education opportunities. FAIMER and the Association of American Medical College (AAMC) have joined together to collect information about the international activities of U.S. allopathic medical schools and to make that information available to the

WHO

SKMA is listed in World Health Organisation and recognized globally as Kazakhstan only semi government Medical college in Shymkent worldwide.

FAIMER

SKMA is Listed in FAIMER: Foundation for Advancement of International Medical Education and Research. The students studying at SKMA can avail the benefits of student exchange program of USA or transfer themselves to any US medical college after evaluating their current credentials at any authorised evaluator organisation like world education Services.

www.wes.org , www.faimer.org

INTERNATIONAL MEDICAL EDUCATION DIRECTORY (IMED)

The International Medical education Directory (IMED) is free web-based resource for accurate and up-to-date information about international medical schools that are recognized by the appropriate government agency in the countries where they are located. [Http://imed.faimer](http://imed.faimer)
